SUMMARY

A UI/UX researcher and designer dedicated to creating intuitive, user-centered digital solutions. I bridge the gap between user needs and innovative technology, backed by a proven track record of developing and launching diverse tech projects, including successfully published apps on the AppStore.

PROFESSIONAL EXPERIENCE

Princess Nourah University — Teaching Assistant (August 2024 – August 2025)

- Mentored over 500 students in programming fundamentals and web development, focusing on simplifying complex concepts and instilling clean coding principles.
-

TRAINING

- **Software Developer & Designer | Apple Developer Academy (August 2025 – June 2026)**
 - **Mobile App Design & Development:** Built innovative mobile applications with a strong emphasis on delivering interactive and seamless user interfaces.
 - **User Research & Testing:** Conducted user research, analyzed behavioral patterns, and created high-fidelity prototypes.
 - **Key Achievements:** Contributed to the design and development of over 7 applications, most notably:
 - **Memento:** A seamless memory logging and retrieval application, currently live on the AppStore.
 - **Bulbul:** An interactive educational app designed to help children develop Arabic speech and articulation skills.
 - **Never Back:** A 3D psychological horror and exploration adventure game set within an environment inspired by Saudi Arabian culture.
 - **Front-End Developer Intern | Solutions by 42 (January 2024 – April 2024)**
 - **Web Interface Development:** Built end-to-end web interfaces using the Angular framework.
 - **Cross-functional Collaboration:** Worked closely with UI/UX designers to seamlessly translate visual layouts and prototypes into responsive, interactive web pages.
-

EDUCATION

Bachelor of Information Systems - Princess Nourah University (2020 – 2024) GPA: 4.56 / 5

SKILLS

- **Technical Skills:** Mobile App Development, Front-End Web Development, UI/UX Design, Usability Research, Programming Languages (Java, Python, C++, HTML).
 - **Soft Skills:** Analytical Thinking, Problem-Solving, Effective Communication, Team Collaboration, Adaptability, High Attention to Detail.
 - **Languages**
Arabic: Native, **English:** Advanced
-

CERTIFICATIONS

- UX/UI Design & Swift Series (101–103) – **SATR (2025)**
- Word 2019 Associate – **Microsoft (2025)**
- Web Application Development – **Doroob (2022)**
- Introduction to Cybersecurity – **CISCO (2023)**
