

REEM AHMED ALGHAMDI

UI/UX Designer & Mobile App Developer

Riyadh, Saudi Arabia | +966 50 479 9669 | ireemahmed2@gmail.com | [Portfolio](#)

PROFILE

UI/UX researcher and mobile app developer with hands-on experience shipping products from concept to launch, including an app live on the App Store. Skilled in translating user research into high-fidelity prototypes and functioning interfaces across mobile and web. Combines a Computer Information Systems foundation (GPA 4.56/5) with practical front-end and Swift development, and a track record of mentoring 500+ students in programming and web development.

CORE SKILLS

UI/UX & Research: User research, usability testing, wireframing, high-fidelity prototyping, interaction design

Development: iOS/Swift, Angular, HTML, Java, Python, C++

Tools: Figma, Sketch, Xcode, Adobe XD

Soft Skills: Communication, high attention to detail, quick learner, problem-solving, team collaboration

Languages: Arabic (Native), English (Advanced)

PROFESSIONAL EXPERIENCE

Teaching Assistant | Princess Nourah University

Aug 2024 – Aug 2025

- Mentored 500+ students in programming fundamentals and web development, translating complex technical concepts into clear, structured lessons.
- Promoted clean-coding principles and best practices, improving students' code quality and debugging skills.

Front-End Developer Intern | Solutions by 42

Jan 2024 – Apr 2024

- Built end-to-end responsive web interfaces using Angular, from component structure through final styling.
- Partnered with UI/UX designers to translate visual designs and prototypes into pixel-accurate, interactive pages.

PRACTICAL TRAINING — APPLE DEVELOPER ACADEMY

Software Developer & Designer | Apple Developer Academy

Aug 2025 – Jun 2026

- Contributed to the design and development of 7+ mobile applications spanning UI/UX design, Swift development, and user testing.
- Memento** — memory logging and retrieval app; led UI/UX design and contributed to development; live on the App Store.
- Bulbul** — educational app helping children build Arabic speech and articulation skills through interactive exercises.
- Never Back** — 3D psychological horror/exploration game set in a Saudi-culture-inspired environment; contributed to design and world-building.
- Conducted user research and usability testing to inform design decisions, translating findings into high-fidelity prototypes.

EDUCATION

Bachelor of Science, Information Systems | Princess Nourah University

2020 – 2024

- GPA: 4.56 / 5.00

CERTIFICATIONS

- UX/UI Design & Swift Series (101–103) — SATR (2025)
- Word 2019 Associate — Microsoft (2025)
- Introduction to Cybersecurity — Cisco (2023)
- Web Application Development — Doroob (2022)
